If a family physician is providing your prenatal care, he/she may also care for your baby once it is born. If an OB/GYN is providing your prenatal care, you need to choose a physician to care for your baby.

It is best to choose your baby's provider a few weeks prior to your baby's birth and let that provider know that you are going to have a baby. Call 715-233-7777 to talk with a provider.
