

Total Protection Plan Warranty

The Total Protection Plan warranty offers users of Cenex Branded Lubricants up to 10 years or 10,000 hours of warranty coverage. The Total Protection Plan offers agricultural producers a unique warranty to cover agricultural production equipment. Coverage is available on New or Used Equipment. Stationary Irrigation engines can also be covered on this warranty. How can we offer this type of coverage? By producing the highest quality products, along with monitoring the equipment's condition, we can reduce failures that result in expensive repairs and costly down time.

This warranty program is the best of its kind in agriculture, covering a wide variety of new and used agricultural equipment and offering valuable benefits.

- **The longest coverage available.** Up to 10 years or 10,000 hours of protection.
- **No deductible.** Unlike standard warranties, which require up to a \$500 deductible when a covered part/component repair or replacement is needed, we cover 100% of the covered costs.
- **No enrollment fee.** Some equipment manufacturers charge up to \$3,000 for their warranties.
- **Transferable.** A new warranty may be transferred from original owner to one or more subsequent buyers for the remainder of the warranty term.
- **No owner Burden of Proof.** We pay the claim without demanding evidence that a repair or replacement is needed due to a lubricant or fuel related failure, as long as the owner complies with the terms of the warranty.

Call Bob Johnson, Countryside Co-Op's Certified Energy Specialist at 1-800-547-8078 or 279-4557 for more information and warranty registration.

Bob Johnson, Countryside Co-Op's (CES) is presenting Steve Weiss from Diversified Farms, LTD located between Alma & Gilmanon with a \$500 check.
