- Ken Ag. Milk filters- many different sizes & we are well stocked!
- Milk house brushes- in different sizes-one of our biggest sellers!
- Ear Tags – different colors & sizes, can special order anything for you!

Our New Products for Lawn Care repellents are:

- Agrid- pelleted bait to kill rats & mice!
- Motomco Gopher Kill- stops gopher damage immediately!
- Motomco Mole Trap- easy to use, safe to set & guaranteed to improve Capture!
- Sweeney Poison Peanuts- rat and mouse bite for a small house to a large farm!

A few new Animal Health items

- Corid- now available in soluble powder & liquid- available in 16 oz & one gallon containers!
- Colostrum- Just like mom's colostrums!
- Today & Tomorrow!
- Hydra feed!
- Eprinex- in different sizes!

Other New Products –

- Cordless Grease Gun with 14.4 or 12 Volt battery!
- Spring Chicken water and feeder and Vital Electrolyte's – to keep them healthy!
- Electric motors in many H.P.
- Roller chain links- in all sizes!
- Pulley's, Sprockets & Hitch pins- small to large size!
- Tarps and tow straps!

Have a safe spring & summer- hopefully the nice weather continues over the next few months! Stop in at any of our Hardware stores to see our new products that are arriving daily or just to say HI!

Thanks for being a Countryside Customer!

Your Durand Ace Crew!

“Changes with NT in Calf Milk Replacer”

The FDA has issued new regulations relative to the approved use of NT (Neomycin/Oxytetracycline) in Calf Milk Replacer. This change will lead to discontinued use of NT in Calf Milk Replacer with the 2:1 ratio of 400 Neomycin/200 Oxytetracycline. As of April 2010, our supplier, Land O Lake's Milk Products, has discontinued manufacturing of 2:1 ratio. Here are some options for you to consider looking at:

- FDA has approved the use of NT in Calf Milk Replacer with a new 1:1 ratio.
- Feeding a non-medicated Calf Milk Replacer.

You may use a NT in the Calf Milk Replacer to provide 0.05 – 0.1 mg/lb of bodyweight daily. Or, you may provide 10 mg/lb of bodyweight daily. This can be fed as a treatment for 7-14 days in calves up to 250 pounds. It is the determination of Land O Lake's Animal Milk technical staff that neither of the new approved levels of NT are viable options. The 0.05 -0.1 mg level is too low to provide significant benefits. The 10 mg level in the Calf milk replacer is not practical for stocking purposes for the producer or the supplier- as it can be only used for the 7-14 days.

Recommended Nutritional, Technology and Management Options:

- Feed a Full Potential plane of nutrition.
- Feed milk replacers that utilize technologies that have a proven track record of having a positive impact on the health

of the calf.

- Focus on basic calf management, particularly colostrum feeding and clean, sanitary practices.

Here are some other useful Calf Milk Replacer additives that are alternative's to using the previously 2:1 NT:

- Bio-Mos®: It benefits dairy calves by fundamentally maintaining gut health and stability. Bio-Mos® is a complex sugar. Many pathogens populate the gut by attaching to sugars associated with the cell wall of cells that line the intestine. Bio-Mos® is rich in complex sugars and acts as an alternative site for pathogen binding, a decoy if you will. Once attached, the pathogens are excreted.
- Bovatec: Effectively controls Coccidiosis and increases rate of weight gain and feed efficiency.
- Deccox: For the prevention of Coccidiosis and has broad spectrum anti-protozoan activity.

Our feed sales staff is well versed in the Calf Milk Replacer products and will work with you to find the right products for your baby calves. Please give any of them a call- they will be happy to assist you.

- Doug Palmer: 715-279-1365
- Mike Baker: 715-491-3129
- Sarah Kinnard: 715-279-4548
- Sheldon Betzold: 715-554-3860

AMERY COUNTRY STORE

Spring and warmer temperatures have made an early arrival this year. Hopefully much needed rain will be soon to follow. Our busy spring and summer season has much to offer you at the country store. Bulk garden seed, seed potatoes, started plants, lawn seed and fertilizers are just a few examples of seasonal items in stock.

See us for all your early season fencing needs. We have T-posts, wood posts, gates, panels, and all types of wire here and ready to go. We have several sizes of fence energizers by “Gallagher” to help contain all types of animals large or small.

First crop hay will be upon us before we know it. We have everything you need to help put your crop away and store it correctly. Preservatives, bunker covers, baler twines (plastic and sisal) and net wrap are all available.

Our Propane re-fill station is finally operational. We can fill any size cylinder you may have or provide you with a new or lease tank if needed. Let us help you get grilling!

Just a reminder we also are a supplier for North Central AIRGAS. We can exchange and supply you with any compressed gas you may need including oxygen, acetylene, argon, and helium. You can own your own tanks or sign a lease agreement with AIRGAS for a yearly rental fee.

County 4-H, and state fair animal projects are in full swing. Get your show feeds at Countryside Cooperative. Whether it being a chicken, duck, lamb, horse, pig, dairy animal or beef animal, Countryside Cooperative has the feed to

bring home the “Grand Champion Ribbon” to your household. We carry Purina Honor Show feeds and Countryside Custom show feeds at our feed & Country Store locations. Stop in & see us today.

From all of us at the Amery Country Store, have a great spring and summer.

EARN FREE FEED

What is Omolene University™?

Omolene University™ is an educational web site created by Land O' Lakes Purina Mills Feed LLC for horse owners. Omolene University™ is a fun and interactive way to earn feed discounts and great prizes!

Participation is simple:

1. Go to www.OmoleneUniversity.com to register.

2. Begin taking courses.

3. For each course you complete you earn “Omolene® Hours” that can be redeemed at the campus store for merchandise.

4. Pass all 4 Online Courses and receive a Coupon offer that will save you \$20 when you buy two bags of Omolene® Horse Feed!

5. Then take the Omolene® Feed Challenge, report your results and receive another money saving offer.

After you've completed courses 1 – 4 we'll donate \$1.00 to NARHA in your name. Refer friends to the site to earn additional Omolene® Hours as well!

Put together by Purina Mills Nutrition Experts, this is a great learning tool for everyone who wants to learn more about Equine Nutrition. www.OmoleneUniversity.com
