

# **Fire Prevention / Housekeeping**

Use this list to help ensure that your subcontractor's safety program is effective

## **Fire Prevention & Housekeeping**

- Each contractor should pick up their own waste unless there is a scheduled cleaning crew for the jobsite**
- A dumpster or other waste management system should be provided for use on the site**
- No smoking in frame buildings**
- No flammable liquid storage inside**
- No Hot works without heat shields, wetting, cleaning
  - ❖ **No scorching of 2x4 when sweating pipes****
- The G.C. should provide fire extinguishers:
  - ❖ **100 feet max travel distance**
  - ❖ **Fire extinguishers on each floor level**
  - ❖ **3A, 40 B:C rating (5-6 lb. ABC) minimum size**
  - ❖ **Not obscured from view – readily accessible****
