

Commercial Fall Protection

Use this list to help ensure that your subcontractor's safety program is effective

Commercial Fall Protection

6 foot rule – Protect workers who are exposed to fall hazards including:

- ❖ Holes – (Stairways, roof openings, etc.)
- ❖ Wall Openings (windows, door openings, etc)
- ❖ Unprotected Sides & Edges – (mezzanine, flat roofs, etc.)
- ❖ Leading Edges (Roofing operations)
- ❖ Low and Steep Slope Roofing
- ❖ Ramps, Walkways, Excavations, etc.
- ❖ Pre-cast Concrete Erection

Fall Protection Systems

- ❖ Guardrails
- ❖ PFAS (Personal Fall Arrest Systems)
- ❖ Covers & Barricades
- ❖ Warning Lines
- ❖ Safety Monitoring

Note: See the attached written program and fall protection requirements grid used by our company as needed.
