Employees of Navistar and International® Dealers Join Forces to Provide Aid to Haitian Earthquake Victims

Company will match donations to AmeriCares

Navistar, Inc., and International® dealership employees have asked how to help the victims of the recent Haitian earthquake disaster. With input from many concerned employees and the Dealer Council, Navistar has chosen to provide disaster relief in three ways:

- First, Navistar will match company and dealer employee donations to AmeriCares, a 501(c)(3) charity, up to \$10,000. Drawing on 25 years of disaster relief experience in Haiti, a broad network of partner organizations and logistics expertise, AmeriCares will make sure that our donations will have an immediate impact on the disaster survivors.
- Next, Navistar will be donating in the range of \$750,000 worth of trucks through our Used Truck Organization and Altec, a major International truck customer. Navistar will be providing used van trucks to move goods and supplies and used vocational trucks, crane and utility trucks, to help clean up the country and restore power and communications. We will work with the U.S. Chamber of Commerce to get the equipment into the country and operational.
- And finally, we are developing a targeted relief plan to support our dealer in Haiti, Cie Haitienne de Moteurs, S.A. We will be sending further information about this part of the relief effort soon.

“Clifford Brandt, President of Cie Haitienne de Moteurs, S.A. ,and his family invested heavily in International by building a new facility that was started in 2008,” said Phil Christman, President, Global Truck Operations. “And we want to support our dealer, its employees and the surrounding community as they rebuild their lives. We will be working to determine how to help their recovery efforts in the coming days. They will need us most after the cameras and public interest has left Haiti.”

Donate to AmeriCares Now!

Navistar researched charities using www.Charitynavigator.org and selected AmeriCares because it has deep roots in Haiti with the sustainability to make a difference long-term and it has very low administrative overhead. AmeriCares has already committed \$5 million in medical and humanitarian aid and has sent emergency response experts to Haiti.
