LEADERS IN MOVING THE WORLD'S AIR

Indoor/Outdoor Ceiling Fan

The J&D Indoor/Outdoor ceiling fan provides a healthier, cooler environment for your animals all year long.

In the summer, the fan creates a mild wind chill to help cool poultry and livestock. It vertically mixes warm stagnant air above and in between animals, reducing heat stress to keep production at maximum levels. It also disperses hot pockets which can be a breeding ground for germs and bacteria.

In the winter, the fan prevents warm air from collecting in the rooftop and peaks which produces condensation that drips down on animals and bedding surfaces. Instead of wasting the valuable winter heat that collects in peaks, the heat is mixed and circulated throughout the building, saving on energy costs and keeping your animals comfortable.

**Limited
Lifetime
Warranty!**

Throughout the year the J&D ceiling fan dries bedding to reduce slippage, and also dries litter, walls and floors. The continuous circulation dissipates ammonia, gasses and odors to keep the air not only cooler, but fresher too.

J&D's Indoor/Outdoor ceiling fan has an energy efficient, fully sealed motor, that uses less energy than a 100 watt light bulb. The fan is UL/CUL certified for outdoor and agricultural use and has passed all UL/CUL water spray tests and corrosion tests. The forward and reverse operation allows you to direct airflow upward or downward giving you total control of the airflow.

The J&D ceiling fan is perfect for all agricultural applications, as well as greenhouses, warehouses, factories and retail stores.

Features:

- UL/CUL Certified for outdoor and agricultural use
- Passed UL/CUL water spray test and corrosion test
- Forward and reverse operation for upward or downward airflow
- Completely sealed motor and housing
- 115 Volts
- 16" grounded cord with 3-prong plug
- 10" down rod
- High output curved steel blades
- Corrosion resistant white powder coated finish
- Simple J-Hook mount

Variable Speed Fan Controls

Part#	Size	Wired				Down					
		Volt	Amps	HZ	Phs	Spd	CFM	RPM	Blade	Rod	Cord
