

4 Way Ceiling Inlet

J & D Manufacturing's 4 way single directional ceiling inlets are manually adjusted to direct air up towards the ceiling for better mixing, and to prevent downdrafts on the animals. The top louver opens and closes with the air flow. The bottom louver is stationary and can be manually located.

Features

- Constructed of UV Stabilized Polystyrene
- Rough opening 29" x 29"
- Overall size 31" x 31" x 9"
- Rated at 1700 CFM

Unassembled

Part #	Descriptions
IC4	4 Way Ceiling Inlet - Unassembled
