

J&D Manufacturing

LEADERS IN MOVING THE WORLD'S AIR

Pruden 24" Poly Pit Transition Fan

The 24" Poly Pit Transition Fan features a design that incorporates the center fan body into the transition body. By eliminating the center fan body, we have created a system that protrudes less from the side of your building. The Poly Pit Transition Fan has a poly shutter and poly prop with a cast aluminum hub. The stainless steel side channels allow you to easily remove the poly hood and shutter without any tools for easy maintenance and cleaning.

PFFS24WS

Features

- Heavy duty one-piece seamless transition body for strength and durability
- Toolless removal of poly hood and shutter for easy maintenance and cleaning
- Increased exhaust area
- Fan features recessed fiberglass venturi and 4 blade poly propeller with cast aluminum hub
- Stainless steel slanted H-frame motor mount and stainless steel hardware
- Fan is pre-wired with 8' cord for 230V
- Pit transition and hood manufactured using a special process that creates a smoother, easier to clean surface
- Poly shutter

When installing any J&D Manufacturing exhaust fan you must provide a proper inlet. Give us a call today to help you design a complete ventilation system that will provide maximum results.
