FOR IMMEDIATE RELEASE

Warrens Cranberry Festival donates to the Monroe County Community Service Program

WARRENS, WISCONSIN, December 13, 2011—Warrens Cranberry Festival donates \$1,000 to the Monroe County Community Service Program.

Each year, the month of September is busy with preparations for the upcoming festival, and the Monroe County Community Service Program sends individuals to help with those preparations. These individuals help with all the arrangements from set up, fencing and taping off areas to raking lawns and putting everything back into its place once the Festival is over. They are on-site in the Village of Warrens, from the beginning of September to the first part of October, four days a week. With enthusiasm and hard work these individuals give it their all and help the Festival accomplish many tasks.

The Monroe County Community Service Program plans to use the donation to purchase equipment to help make their jobs easier and more efficient.

Kim Schroeder, General Manager of the Warrens Cranberry Festival presented the \$1,000 donation on December 11, 2011.

The purpose of the Warrens Cranberry Festival shall be to promote the common good and general welfare of the community of Warrens, including holding an annual community festival and raising funds to be used exclusively for civic betterments and social improvements in the Warrens community.
