Farmer Bob and Johnny the World's Funniest Tractor

Festival attendees will see some history, with humor, on September 24-26, 2010 at the Warrens Cranberry Festival in Warrens, WI, when they see "Farmer Bob and Johnny the World's Funniest Tractor". Farmer Bob will have folks rolling in the streets with laughter when he starts up his 1949 John Deere MT.

Johnny the tractor always puts smiles on everyone's faces with that familiar "put-put" sound. Some of Johnny's features include a skunk that sprays water, a big sound system, all sorts of sirens, horns, bells, and whistles, and some surprising remote controls. Johnny even blows up balloons, which Farmer Bob twists into all sorts of creations.

Johnny the Tractor pulls a trailer loaded with vintage camping gear, old tools, utensils, fishing equipment, even a 1947 Whizzer motorbike.

Farmer Bob whose real name is Bob Hill, comes from Northeastern Iowa, where he and his family have farmed for 157 years on the same homestead. Bob has traveled to 41 states and Canada making folks laugh for the past 17 years.

When you are at the festival, be sure to see "Farmer Bob and Johnny the World's Funniest Tractor". You will see a sight you will never forget!!

The purpose of the Warrens Cranberry Festival shall be to promote the common good and general welfare of the community of Warrens, including holding an annual community festival and raising funds to be used exclusively for civic betterments and social improvements in the Warrens community.
