

## Residential Waste Service

### Locally Owned Means Advantages for You.

With more than 20 years of exceptional waste removal and recycling service behind us, IROW is proud to be Central Wisconsin's leading locally owned residential waste hauler. Because we live here, we work very hard to earn our neighbors' trust with honesty, integrity, exceptional service and no added fees or special surcharges. We will work with you and your community to customize specific waste removal and recycling services to fit your needs. IROW's profits remain right here in Central Wisconsin, which helps fuel our local economy and allows us to support many good causes from local high school activities and recycling art scholarships to the Jaycees, youth sports, Easter Seals and other worthy organizations.

### Split Body Trucks for Better Efficiency

IROW's locally fabricated split-body trucks accommodate both recyclable materials and garbage, which means fewer trucks on the road, greater safety in your neighborhoods, less fuel consumed, and convenient, one-day pick-up for residents.

### Cost-Competitive Service You Can Count On

We offer contract and subscription waste service options including weekly trash and recycling pickup, large item pick-up, dumpster delivery and pick-up and more. IROW also offers roll-off containers with capacities of 10 to 40 cubic yards for roofing and other projects. IROW's friendly customer service staff will be happy to help you select the appropriate service method to meet municipal recycling requirements and other specific needs. Want IROW in your community? Just call us at 715.693.7123.

"We take care of residential customers the way we'd like to see it done at our own home."

### Typical Recyclable Materials :

- **Paper** – Newspapers, brown paper grocery bags, magazines, telephone books, catalogs, junk mail, brochures, flyers, regular and window envelopes, stationery, computer paper, note paper, typing paper.
- **Cardboard** – Corrugated Cardboard should be broken down in bundles no larger than 2' x 3'.
- **Cans** – Tin, steel and bi-metal beverage and food cans (washed and label removed), aluminum cans, aerosol cans.
- **Plastics** – Plastics #1, #2, PET and HDPE bottles with caps removed and rinsed thoroughly.
- **Glass** – Glass food and beverage containers: only clear, green and brown, remove and discard caps and rings and rinse thoroughly.
- **Automotive** – Automotive Batteries, Oil (in clear see-through one gallon jugs sealed and identify liquid).
