What can you count on with the revolutionary new bizhub PRESS C8000? World-class color at 80 pages per minute, with image quality rivalling offset printing – but without costly, time-consuming make ready and press setup. Fast, cost-effective color that makes short-run printing profitable. Purpose-built reliability, through a workhorse 500,000-page monthly duty cycle. Digital production advantages for direct-mail variable-data printing. Powerful in-line finishing options to satisfy the most demanding production print jobs. And game-changing technologies that assure maximum uptime in high-volume production environments – including an IDC sensor for real-time color adjustments, new Dual Fusing system, vacuum belt feeding mechanism and operator-replaceable unit components. For all this and more, count on Konica Minolta: leading the revolution in offset-quality color digital production print.

### REVOLUTIONARY ADVANTAGES FOR DIGITAL COLOR PRINT PRODUCTION

**80 PPM COLOR OUTPUT** – up to 4800 full-color pages per hour, with 500,000-impression monthly duty cycle to handle the heaviest production demands.

**15-INCH COLOR LCD** touch-panel display can be placed anywhere on the unit for on-board document preview/review, making post-RIP editing and document file management quick and simple.

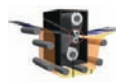

**3RD-GENERATION SIMITRI HD TONER** for smaller, more uniform toner particles for spectacular color imaging with superior fine detail.

**1,200 DPI RESOLUTION** for smooth images, with enhanced outline processing for more legible text even against color backgrounds.

**RIGID ALUMINUM DIE-CAST LASER UNIT** for state-of-the-art professional-grade print performance with purpose-built reliability.

**PRODUCTIVE DUAL FUSING** system for offset-quality images without time-consuming and revenue-squeezing offset press labor and setup.

**NEW HYBRID DE-CURLING** with an advanced series of decurl rollers and humidification to condition the most challenging paper stock and vacuum belt feeding mechanism for smooth-running throughput.

**POWERFUL IN-LINE FINISHING OPTIONS:** hole-punching, stapling, folding, saddle-stitching to automate a wide variety of job specifications.

**PERFECT-BINDING** capability for up to 600-page books.

**IMAGE DENSITY CONTROL (IDC) SENSOR** for real-time density adjustments; accurate color density control with new density balance adjustment mode.

**ADDITIONAL PRODUCTIVITY OPTIONS** include large-capacity stacker unit, stacker cart, post-inserter.

**AUTO DUPLEXING** of paper in weights up to 300 g/m<sup>2</sup>, to produce dual-side prints and copies at blazing engine speed.

**ORUM** (Operator Replaceable Unit Management) to maximize uptime in high-volume color production environments

**10,760-SHEET** maximum paper capacity – among the highest in its class, for handling long press runs with less operator assistance.

**SOPHISTICATED COLOR MANAGEMENT** with a choice of professional color image controllers to satisfy the most demanding clients in graphics-intensive applications.
