

Orioles

Tips for attracting orioles...

- POPULAR ORIOLE FOODS:

- Insects, mealworms & wasp

- Nectar

- Fruits such as, oranges, berries and apples

- Jelly, especially grape

- Suet mixed with fruit, berries or peanut butter

- Keep nectar, fruit and jelly feeders fresh by replacing the contents every few days, and washing the feeder thoroughly.

- Protect oriole feeders from ants by installing ant moats with each feeder.

- Encourage orioles to nest in your yard by having nesting materials available.

- To keep orioles coming all summer long, offer mealworms in late May, June and July when they are raising their young.

- Make sure water is available. All birds need water for cleaning and bathing. Orioles are especially attracted to shallow birdbaths and moving water.
