

# NUTRASOFT PELLETTIZED GYPSUM FOR LAWNS AND GARDENS

Apply NUTRASOFT Pelletized Gypsum to loosen those heavy, hard packed clay soils...allowing moisture and air to penetrate and move freely in the soil, improving conditions for hearty lawns and gardens. NUTRASOFT is packed full of Calcium and Sulfur, 2 essential nutrients for plant growth. NUTRASOFT also counteracts the harmful effects of ice-melting salts.

NUTRASOFT A fine grind causes this product to work faster and more effectively. NUTRASOFT Gypsum is first ground to a flour-like powder and then is made with a moisture activated binder to form dust free, fertilizer sized pellets that quickly dissolve when added to the soil.

## ADVANTAGES

- Easy to use....No Mess
- Loosens Hard-Packed Soils
- Increases Nutrient Availability-Stretches your Fertilizer Dollar
- Counteracts Salt Damage
- Spreads Accurately With Any Spreader
- Supplies Vital Nutrients-Calcium and Sulfur

## DIRECTIONS FOR USE

NUTRASOFT is non-burning and is non-toxic to humans, animals, and plant life. Water the soil well after a NUTRASOFT application.

**New Lawns:** Apply 80 lbs. per 1000 square feet before seeding or sodding. Rake or till thoroughly into soil. Use more NUTRASOFT on higher clay soils.

**Established Lawns:** Apply 40 lbs. per 1000 square feet in the Spring and again in the Fall.

**Gardens:** Mix in 20 lbs. per 100 square feet and water thoroughly.

**Roses:** Place 1-2 cups around the bush in both Spring and Fall.

**Trees & Shrubs:** Apply 2 cups around the base of shrub, 5-6 cups around each evergreen. Water well.

**Winter Salt Damage, Fertilizer & Animal Spots:** Apply 20-40 lbs. per 100 square feet for salt damaged areas and apply 1/2-3/4 cup per square foot for small spots.

**Compost Aid:** Spread out approximately 2 cups over each garden cart load as it is dumped into compost pile. Turn pile daily, adding 2 more cups per day until complete. (Approx. 1 1/2 weeks).
