

EURO MOUNT

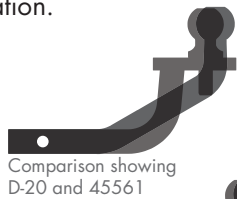

Eye catching retail displays for your Euro Mounts™ are available for both pegboard and slatboard options.

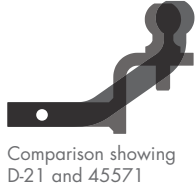

You now have the option to choose Euro Mount™ instead of the standard mount with your Class 1 & 2 receiver hitch orders. See our application guide on page 19 for more information.

EURO MOUNT

A New Way to Order Class 1 & 2 Hitches

Historically, CURT class 1 & 2 hitches have shipped with the appropriate ball mount, pin and clip. This helped ensure that the end user received the ball mount appropriately sized for that hitch. However, it also limited your options. In 2010 CURT will offer every class 1 & 2 hitch in any of the package options listed below.

Option 1

Hitch with Standard Ball Mount, pin & clip
Order 5-digit hitch number (12093)

Option 2

Hitch only
Order 5-digit hitch number (120930)

Option 3

Hitch with 1 7/8" Euro Mount, pin & clip
Order 5-digit hitch number with "1" at end (120931)

Option 4

Hitch with 2" Euro Mount, pin & clip
Order 5-digit hitch number with "2" at end (120932)
